

A photograph of a clothing rack with several shirts hanging on wooden hangers. The rack is set against a background of a calendar showing dates from 20 to 30. The image is overlaid with a dark blue semi-transparent box containing text.

Quick guide:

Deploying Magento on IBM i using Zend Server

Part of the PHP on IBM i series

Deploying Magento on IBM i using Zend Server

Magento is one of the most popular (if not, the most popular) ecommerce platform in the world. Magento Community Edition is the free, open-source version.

The core code in the Community Edition can be modified by developers and additional features / extensions added by installing apps from the Magento Connect marketplace.

There is a paid version, Magento Enterprise Edition, which has additional features and functionality.

- Log into the Zend Server console
- Navigate to the Guide Page
- Click on the Magento icon
- The Application Package Download dialog will be displayed
 - Once the package has downloaded, Click Next
- The Application Details dialog will be displayed
 - Enter an unique Display Name
 - Ensure the default server Virtual Host is specified, including the port number
 - Enter an unique Path
 - Click Next
- The End User License Agreement dialog will be displayed
 - Read the End User License Agreement, then check the checkbox
 - Click Next
- The Application Prerequisites dialog will be displayed
 - Check that all prerequisites are met
 - Click Next

- The User Parameters dialog will be displayed
 - Enter Database Password
 - Enter an unique Database Name
 - Enter a Magento Admin Password
 - Click Next
- The Deployment Summary dialog will be displayed
 - Click Deploy
- The Applications List will be displayed
 - The deployment status of your application will be displayed
 - Once the application is deployed, click on the application to show the application Details
 - Click on the Base URL to launch the application
- To access the Magento back office functionality, add /admin to the URL
 - Log in with user ID “admin” and the Magento Admin Password.
