# Velocity Delivers Rapid Migration to Android

Get new Android devices and existing apps into the hands of workers fast, with Ivanti Velocity, powered by Wavelink

Migrate in Minutes
Existing telnet or web app interface with all the capabilities of existing apps.

Preserve Existing Configurations
Keep all the existing application connections and settings intact while moving to the Android OS.

Maintain Productivity
Maintaining the existing application experience provides time for workers to become comfortable with Android hardware. Modernize when ready.

Minimize Impact on the Business
Ensure continuity and keep operational workflows steady by controlling the pace of change.

Deploy New Android Devices Quickly!

TRY RAPID MIGRATION
